MEMORANDUM FOR: [] EO/NIC STAT
FROM: [] NIC/AG STAT
SUBJECT : Roundtable on "Successor Generation" in Western Europe and
Public Opinion on Security Issues

On December 22 we held a roundtable discussion with USICA and FSI public opinion analysts on the subject of the attitudes of European youth toward the United States, their own societies, and current security issues like INF. The discussion, which was intended to provide us with insights of value to the SNIE that we are drafting on the West European "peace movement," was well attended and provided us with both useful data and interpretations of that data.
